

## Preamble

The 3rd National Symposium on Pharmacotoxicology focuses on public health and environmental preservation through the One Health approach. This edition explores Bioformulations as innovative, sustainable, and economically viable alternatives to chemicals, uniting experts to advance global health and ecological solutions. The symposium brings together researchers, healthcare professionals, and industry experts to discuss recent advances in pharmacotoxicology, with a focus on the potential of bioformulations for global health and economic growth.

## Topics

1. Natural Bioformulations & Essential oils

2. Biocontrol & Natural Bioinsecticides

3. Pharmacotoxicology & Health

4. Eco-bioformulations & Circular Economy
